

# The Very Best In You

Change

This is for the very best in you  
This is for the very best in you

Something very special  
So sweet, so refined  
And you're such a lovely lady, yeah  
And I'm so glad that  
Your heart is really mine

I get excited  
About this love that we found  
And I'm glad we got together  
It's so nice having you around me

This is for the very best in you  
Because there's no one better  
This is for the very best in you

Oh, girl, everything I hoped for, yeah  
In a girl I could find  
You're so understanding, baby  
You're so sweet and you're so kind

I really mean it, oh, baby  
From my heart, I must say  
I'm never, never, ever  
Gonna leave you, yeah  
Cause right here is  
Where I'll always stay

You are my lover  
And you turn me on  
I thought I'd never find  
A love so strong

Please, say to me  
This love will never end

This is for the very best in you  
Because there's no one better  
This is for the very best in you  
It's all for you

This is for the very best in you  
This is for, this is for  
This is for the very best in you  
All the love I have within
