

Suck My Energy

Channel Zero

You, you once broke my belief
And I know, I was so damn naïve
Remember the days you acted so real
The things you said were not a big deal
You could call me whenever you wanted
I was yours, a toy, always ready
Get away, don't wanna see
Don't try to manipulate
Makes me wonder
Whenever you're hanging round
I die, die in front of your feet
And I've tried to exist on your heat
Sucking me dry for my energy
Sucking me dry with your energy
Sucking me dry for the energy
Get away, stay away from me
Get away, don't come oh so close to me
And I know you'll be back
So tell, tell me what do you need
Alright, take my body to feed
Sucking me dry for my energy
Sucking me dry with your energy
Sucking me dry for your energy
Sucking me dry for more energy
