

# Don't Make Me Laugh

Chanté Moore

How do I look?  
Is that ok?  
Lights make up, don't need my script  
I know the lines  
Smile sing love song  
Act like nothing's wrong  
I know you're lost but alone  
Action go though the motions  
But tonight something just isn't right  
Stop! Where's my understudy?  
I can't go on, maybe she can take my place

You don't know me  
No you don't  
You don't dare  
You don't even bother  
I'm so lonely  
I'm fading fast

When you see me, I feel invisible  
When you hold me I feel nothing at all  
I'm in this masquerade, I know the part I play  
But all that happy face pretend that it's not that way  
And all I have to say is  
Don't make me laugh  
Ha hi ha ha ha h hi  
It's not funny anymore

Hey chin up!  
What's wrong with you?  
I give it all I got  
Hmmm, it's not enough  
This hurts too much  
You don't even call it love

You don't know me  
No you don't  
You don't dare  
You don't even bother  
I'm so lonely  
I'm fading fast

When you see me, I feel invisible  
When you hold me I feel nothing at all  
I'm in this masquerade, I know the part I play  
But all that happy face pretend that it's not that way  
And all I have to say is  
Don't make me laugh  
Ha hi ha ha ha h hi  
It's not funny anymore

Wave goodbye, curtain's coming down  
This is our final act  
It's over, it's over now

And when you see me, I feel invisible  
When you hold me I feel nothing at all

I'm in this masquerade, I know the part I play  
But all that happy face pretend that it's not that way  
And all I have to say is  
This girl is gone  
Don't make me laugh  
Ha hi ha ha ha h hi  
It's not funny anymore

And when you see me, I feel invisible  
When you hold me I feel nothing at all  
It's not funny anymore  
It's not funny anymore  
And all I have to say is  
Don't make me laugh  
Don't make me, don't make me  
Don't make me laugh
