

# Heartbeat

Chanté Moore

Before I met you  
My life was so different  
It was like my emotions were asleep  
Well, you've awakened them  
And now I'm in love with you  
And everytime I see you  
My heart skips a beat

Once I was so alone, my heart had no fire  
Baby I was working but I was so uninspired  
Wasn't looking for love, wasn't looking for romance  
But somehow love, it found me  
And then my heart began to dance, dance, dance

Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat  
Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat

The closer I get to you, my lips are smilin  
The beat goes twice the tempo  
Temperatures risin  
Now I'm thinkin bout love, thinkin bout your body  
Whenever you're around me  
You make my heart begin to dance, dance, dance

Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat  
Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat

Funny how love can change even the simplest things  
Baby when you touch me (oh)  
Baby when you kiss me (oh)  
Oh, there's something bout your lovin boy  
That makes my, makes my heart wanna dance dance dance

Yeah you've got the power baby  
I love what you're doing to me baby  
Will you dance with me baby?

Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat  
Baby ooh baby ooh (come closer)  
Baby you baby you make my heart beat
