

# Take Care Of Me

Chanté Moore

It's Tim and Bob again  
Chanté Moore again  
All up in that, oww goodnes  
What'chu talking about?  
It's so hot  
We can't be stop  
Come on

Baby before you go  
Hanging out tonight  
Something you already know  
Don't let them get you caught up

Every thing that you do  
Could come back on you  
I'm not saying that you're playing  
I'm not saying you're gaming me  
But all your boys don't have a lady  
Looking for someone just like me  
Be careful  
(Be careful, be careful)

When you're out there having fun  
Just remember I'm number one  
Take care of  
Take care of me  
Gotta do what you do  
But if you gamble you could lose  
Take care of  
Take care of me

Just before you go  
Know I'm open, wide open  
(I'm open)  
You outta act like you know  
Even when I'm not around  
(You know)

Every thing that you do  
Could come back on you  
I'm not saying that you're playing  
I'm not saying you're gaming me  
But all your boys don't have a lady  
Looking for someone just like me  
Be careful  
(Better watch it, watch it, watch it)

When you're out there having fun  
Just remember I'm number one  
Take care of  
Take care of me  
Gotta do what you do  
But if you gamble you could lose  
Take care of  
Take care of me

When you're out there having fun

Just remember I'm number one  
Take care of  
Take care of me  
Gotta do what you do  
But if you gamble you could lose  
Take care of  
Take care of me

Just realize any time you choose to hang  
How I throw that thing and you scream for Chante  
Splish, splash, gush, push  
Take care of this platinum bush  
I was born, Chante Harris  
Warning Tim and Bob that I rockin' with Chanté Moore  
So take care of me  
When it rain or even on sunny days  
When you hit the club with your boys looking for ladies  
None of them niggas ain't got a woman like you  
That can take care of home and the bills too  
Cook up a hot meal and make you feel good  
Get you hot with it, not trip about you stickin' it  
Just keep the conversation limited, with them hoes  
It could get serious when it come to  
My money, my music, or my nigga  
Better take care of me

When you're out there having fun  
Just remember I'm number one  
Take care of  
Take care of me  
Gotta do what you do  
But if you gamble you could lose  
Take care of  
Take care of me
