

# Far As The Sky

Charice

Far beyond my lonely dream  
I saw you wave to me alone in tender gleam  
Waited you forever  
Wanted to remember  
And now I'm opening the door

I'm here to lighten up the day  
For me and for our love, I'm always here to stay  
Blue and gold ocean smiles  
And this joy will travel countless miles  
Many silent hopes will rest its wings to fly again  
All the shining lives will gather to retain

Our destiny,  
It's a true fantasy  
I share my love, to help you through the night  
Far as the sky,  
My heart will reach out to the one who cries  
I will never leave you all behind

Our destiny,  
It's a true fantasy  
I'll share my love, to help you through the deepest night  
Far as the sky,  
My love will blow away your pain, no cries  
I am always here to sing, to sing this song for you  
I am always here to sing, to sing this song for you

Together underneath the sun  
We hear the birds whistle and music has begun  
Melodies in the air  
Carried lots and lots of news to share  
Many vibrant shows, I saw them yesterday  
All their precious spells would never fade away

The symphony,  
A massive harmony  
Spare the strength to brighten up the weakened world  
Far as the sky,  
We've got to search for all the caring souls  
I could not have seen the truth, if it wasn't for you  
I could not have seen the truth, if it wasn't for you  
Yeah!

Our destiny,  
It's a true fantasy  
I share my love, to help you through the night  
Far as the sky,  
My heart will reach out to the one who cries  
I will never leave you all behind

Our destiny,  
It's a true fantasy  
I'll share my love, to help you through the deepest night  
Far as the sky,  
My love will blow away your pain, no cries  
I am always here to sing, to sing this song for you

I am always here to sing, to sing this song for you  
Ohh... to sing this song for you...
