

# I Love You

Charice

I opened my mouth, it all rushed out spoken  
Though I never meant you to know it  
I was stalling myself and got held in the moment  
Without even knowing

I stopped and got lost in my mind  
I've never felt so unraveled in my whole life

I said, I love you, I love you, I love you  
But now I regret it  
I said, I love you, I love you, I love you  
But I'm sorry I said it

But what's done is done, I can't undo what's done  
Don't want to hurt this thing we've just begun  
I know I've said it but can we forget this?

I caught myself but I'm scared that we're broken  
Though you never could see it coming  
And I don't know what my or how our hearts are hoping  
My feelings are showing

I stopped and got lost in your eyes  
I never thought you could make me so alive

I said, I love you, I love you, I love you  
But now I regret it  
I said, I love you, I love you, I love you  
But I'm sorry I said it

But what's done is done, I can't undo what's done  
Don't want to hurt this thing we've just begun  
I know I've said it but can we forget this?

Now I'm hoping your hearts open, words unfolded  
Now you know and I couldn't hold it all inside  
Push it back in to rewind  
Now my secret's spoken

I said, I love you, I love you, I love you  
But now I regret it  
I said, I love you, I love you, I love you  
But I'm sorry I said it

But what's done is done, I can't undo what's done  
Don't want to hurt this thing we've just begun  
I know I've said it but can we forget this?

I said, I love you, I love you, I love you  
But now I regret it  
I said, I love you, I love you, I love you  
But I'm sorry I said it

But what's done is done, I can't undo what's done  
Don't want to hurt this thing we've just begun  
I know I've said it but can we forget this?

I love you and now I regret  
I love you, I'm sorry I've said it  
I love you and now I regret  
I love you, I'm sorry I've said it
