

# Lighthouse

Charice

I'm trying to navigate my way  
I lay by my bow but my winds have changed  
Stuck for a while in the place  
It hasn't been charted  
Facing the storm on every side  
Afraid to go forward, left or right  
Tossing and turning with the tide  
In every direction

Every shadow has a doubt  
But there's a light they can't put out  
And it's shining through the clouds  
It's calling to me, it's calling to me

Yes I can see it  
Can just about make it  
It's the light across the ocean  
It must be a lighthouse calling my ship home  
It's there to show me where I'm going  
Take me to home, take me to home again  
Take me to home

If I could get there I would stay  
The waves could crash on me but I'd be safe  
Shining my light out through the haze  
So you could see me  
Hoahh  
Every shadow has a doubt  
But there's a light they can't put out  
And it's shining through the clouds  
It's calling to me, it's calling to me

Yes I can see it  
Can just about make it  
It's the light across the ocean  
It must be a lighthouse calling my ship home  
It's there to show me where I'm going  
Take me to home  
Take me to home, again  
Take me to home  
Take me to home  
Take me to home

Yes I can see it  
Can just about make it  
It's the light across the ocean  
It must be a lighthouse calling my ship home  
It's there to show me where I'm going  
Take me to home  
Take me to home, again  
Take me to home

I'm trying to navigate my way  
I lay by my bow but my winds have changed  
Stuck for a while in the place  
It hasn't been charted
