

Never Always

Charice

Hope's up, hands down, he wins I'm out
I'm spinning 'round, which way is out
Only time will tell, don't speak too soon
Love never listens, to me or to you

So what is forever for
Nothing's forever anymore
A word that's so insecure
Loses hearts that can't be found
Once you lift off the ground
It is a long way down
Saying forever's not allowed

You say you'll always be around
Cause that's the way you're feeling now, oh
You can say those words that don't let me down
Never always
Words cause hearts to break
Don't let them get in the way, no
So when you're trying to find the right words to say
Never always
Never always

Back then a young me, love snatched from me
I'm so confused, my heart abused
Got so weak I fell, and I still wear the bruise
Cause he told me always, cause the word was misused

So what is forever for
Nothing's forever anymore
A word that's so insecure
Loses hearts that can't be found
Once you lift off the ground
It is a long way down
Saying forever's not allowed

You say you'll always be around
Cause that's the way you're feeling now, oh
You can say those words that don't let me down
Never always
Words cause hearts to break
Don't let them get in the way, no
So when you're trying to find the right words to say
Never always
Never always

You say you'll always be around
Cause that's the way you're feeling now, right now, right now
You can say those words that don't let me down
Never always

You say you'll always be around
Cause that's the way you're feeling now, oh
You can say those words that don't let me down
Never always
Words cause hearts to break
Don't let them get in the way, no

So when you're trying to find the right words to say
Never always
Never always
