

# Thank You

Charice

They said when you find love  
you'd better hold on  
You gotta keep it  
close to you  
but you gotta give love  
if you gonna get love  
and you will know when  
love's found you

So I just wanna thank you  
for all you have done

Gave me strength  
when I had none at all  
Gave me hope  
when I was running low  
Showed me how  
to make it through and  
For everything  
you know I thank you  
You believed when I'd no reason to  
You were there when I needed you, oh

And I just wanna thank you  
I just wanna thank you

I could imagine a world without you  
facing the hard times  
all alone  
It'd be a cold world  
I'd be a lost girl  
If I didn't have you  
close to home

So I just wanna thank you for all you gave up

Gave me strength  
when I had none at all  
Gave me hope  
when I was running low  
Showed me how  
to make it through and  
For everything  
I wanna thank you  
You believed when I had given up  
Carried me and I was lifted up

I just wanna thank you  
I just wanna thank you oh

Oh I'll be stranded  
I'd be nowhere  
Million miles away from all I know oh

But you were there to keep me grounded  
I counted on you  
You brought me home oh

You gave me strength

And I'm still standing here

I just wanna thank you

I just wanna thank you

Thank You, Thank you, Thank you

I just wanna thank you (just wanna thank you)

I just wanna thank you

I just wanna thank you (just wanna thank you)
