

Without Your Love

Charlene Soraia

Close your eyes love
Shut your mind off
This may hurt
But for a little while

It's not easy
To break free from
Your cold silence
But hear me out

We can't stay here
This is not sacred place
We've come a long way down

But I'm still hoping
Hoping we're not broken
Broken but we know it
I don't wanna be without your love

I'm still hoping
Hoping we're not broken
Broken but we know it
I don't wanna be without your love

We keep trying
To make sense of
The little things
Out of season

And I'm not the same girl
That you first fell for
And I won't be the last
To turn around look at me now

We can't stay here
This is not sacred place
We've come a long way down

But I'm still hoping
Hoping we're not broken
Broken but we know it
I don't wanna be without your love

I'm still hoping
Hoping we're not broken
Broken but we know it
I don't wanna be without your love, love

Will I be replaced
Because I'm broken

I'm still hoping
Hoping we're not broken
Broken but we know it
I don't wanna be without your love, love

And I'm still hoping

Hoping we're not broken
Broken but we know it
I don't wanna be without your love, love

And I'm still hoping
Hoping we're not broken
Broken but we know
I don't wanna be without your love, love

And I'm still hoping
Hoping we're not broken
Broken but we know
I don't wanna be without your love, love
