

August Rush

Charles Hamilton

Yo I'm dead ass
It's kinda funny how being around the right chicks
Can step ya bars up especially depending on the season
C H A R
Got my name back from ni**a
Got my dick back from bitches
Just sit back n listen to the impact I'm giving
Is it that I'm living that different has a decision to make
I'm living great but hey a decision is fate
Picture a data encrypted into the way you listen
N maintain a trip of the ways
Flipping the waveless gives way to disgrace
Depending on the way you delivering what you say
Don't pretend to be amazed
It must be a feast of disgusting
Keeping percussion deep in
The oven in which I speak to beats in
Reaping what I sold
Seeing what is the soul
Of freedom my upper knuckles were heat nothing to cold
Need I remind me I be holding you hand
Ran over a van stance to stand
Shoulder to shoulder with stan
A fan who didn't plan to meet the man
But is instead a fan of reason and people living in basements
CMON
We up in this minivan

My amazing lady friend I say again
Can we spend the day in ten just playing hey don't pay the rent
Jaded to the way you complain n say we should end
Fade begin hate even can break in in the Am SO BED
May we be safe while we rock habits
I got magic back flipping stock gravity
Indecision I'm not mad at me I'm simply listening different
And hot rapping easy comes with kissing the watch
Is it that of me fashion that eating half of what she
Radically calls her lack of need
I sit back n plea with actually the past of mental grief
Or instrumental that he is spazzing DOT
Every sentence I don't say is home plate
No play no lasting in the sheets
Master what we read and practice what I reach
And I only added butt cause that picks up my checks What

You can't be prissy cause we plan to get busy
I am in the city
And damn if a visit to a different planet wouldn't be pretty
Hamilton's answer, to push the limit to chain
To the limit isn't as strange
An intuition isn't
Entertainment
Can perhaps be where the backseat can take us
So Hey love with ya make up blush
Or race cut to make up a way to say RUSH!
Day to day we fuss n take away the wasn't us
Until they say to us make up a way to say that we suck
Pay up faded painters are like playing with a knife
Day to day night the later craters safe in the day light
Waves to the right n my lady by my side makes me the guy
We bout to get crazy tonight
