Another I Love You Kind Of Day

Charley Pride

Wake up and open your eyes breakfast's on and the sun is high Off to work I'll kiss you goodbye I'll phone you at noon and I' ll miss you till five It's another I live you kind of day Cause you're with me through everything I do and say It's another I live you kind of day It's another I live you kind of night it's on its way

Come home evening news is on feeling good with you in my arms How was the day honey mine was mourn Turn off the world and turn some lovin' on It's another I live you kind of day... It's another I live you kind of night it's on its way
