

## Back To The Country Roads

Charley Pride

I can see the sadness in your eyes knowing that I'm going to leave  
If I told you the reason you'd never understand cause the truth  
you never could see  
So I'm goin' back to the country roads back where the tall corn  
grows  
Back where the stream is running free  
Back where the air is clear back where I can hear the whippoorwills  
sing me to sleep

I've enjoyed the sweetness of your smile  
And your soft touch that warms me when I'm cold  
If you want me you can find me look down that country road  
I'll be walking and looking for my soul  
So I'm goin' back...  
The whippoorwills sing me to sleep
