

Both Of Us Love You

Charley Pride

You think only of yourself I think only of you too
What chance for me is left since both of us love you
We only think we agree on it's not to make you blue
We have a lot in common seems both of us love you seems both of
us love you

How lonely I will be with all the love between us two
None of it belongs to me cause both of us love you
The only part I play is that other fool
Unwanted I keep staying just helping you love you
Yes both of us love you yes both of us love you
