

# I've Got A Woman To Lean On

Charley Pride

(I've got a woman to lean on)  
I've seen times there was no way the sun could ever shine  
And I've seen me so completely down and I count up every time  
But I've got me something special that keeps me going strong  
When life gets rough hmm hmm I've got a woman to lean on  
I've got a woman to lean on when I need her she stands by  
She's a lovin' flowin' fountain the stream that never will run  
dry  
She's a lady and she's a mother I think of which some kinda lov  
er  
Hmm hmm I've got a woman to lean on  
I can't buy her the things I'd like but I don't hear her compla  
in  
If I needed water to save my life I think she could make it rai  
n  
And it's just a fact of livin' that sometimes things go wrong  
But I don't worry hmm hmm I've got a woman to lean on  
I've got a woman to lean on...  
Hmm I've got a woman to lean on
