

## Let Me Help You Work It Out

**Charley Pride**

There is something in your heart weighing heavy on your mind  
You need gentle arms to hold you like these gentle arms of mine  
You need love and understanding and the shoulder you can cry on  
You need someone to rely on you don't have to be alone  
Let me help you work it out help you face the situation  
Count on me for consolation let me help you work it out

Let me help you work it out I'm the one who'll always care  
When you need me I'll be there let me help you work it out  
Let me help you work it out...
