

Little Folks

Charley Pride

We've decided we can't work it out we might as well call it a day

We agree to disagree and go our separate ways

We just don't seem to get along we're fightin' and we fuss

So we've agreed to part as friends is best for both of us.

But what's gonna happen to the little folks the little folks the little folks

What's gonna happen to the little folks who live in our house

Since we've decided we can't work it out we might as well end this time

We fought enough and fussed enough and said too much this time

So we've agreed that the thing to do has set each other free

You'll go your way and I'll go mine that's best for you and me

But what's gonna happen to the little folks...

But maybe someday we'll look back and see how foolish we've been

Cause we might find just the little ones who'd lose in the end

But maybe things are not so bad, we're still in love you and I

And maybe we can work it out if we give it one more try

We owe that much to the little folks, the little folks the little folks

We owe that much to the little folks who live in our house
