Lovin' Understandin' Man

Charley Pride

My baby changes like the weather one day she's warm and then sh e's cold But some day I'll understand her better in a thousand years or so But as long as there's blue sky above me and as long as there's life in my hand My baby knows I always will be her lovin' understandin' man My baby rocks me like the ocean don't know which way she's gonn a go But maybe some day she'll find direction in a thousand years or so But as long as there's blue sky... But as long as there's blue sky... Her lovin' understandin' man
