

My Heart Is a House

Charley Pride

My heart is a house and love lives inside my heart
Has a door and to you it's open wide
And all that it needs is for someone to care
My heart is a house would you like to live there.

If you moved into my heart you'll find the world of bliss
And when the rent comes due you can pay it with a kiss
You don't need to leave your promise will do
Walk into my heart it's a house built for you.

The key to my heart only you will possess
Come in then lock the door we can live in happiness
We'll fill all the rooms with the love that is true
Come into my heart, it's a house built for you.

Come into my heart, it's a house built for you...
