

## My Heart Is a House

Charley Pride

My heart is a house and love lives inside my heart  
Has a door and to you it's open wide  
And all that it needs is for someone to care  
My heart is a house would you like to live there.

If you moved into my heart you'll find the world of bliss  
And when the rent comes due you can pay it with a kiss  
You don't need to leave your promise will do  
Walk into my heart it's a house built for you.

The key to my heart only you will possess  
Come in then lock the door we can live in happiness  
We'll fill all the rooms with the love that is true  
Come into my heart, it's a house built for you.

Come into my heart, it's a house built for you...
