

My Love Is Deep My Love Is Wide

Charley Pride

My love is deep my love is wide you can't see across to the other side

My love is deep my love is wide

I've got too much love for you for me too hard to hide

People say I'm not the man not they used to know

Something made a change come over me

And when I feel such happiness I guess it's gotta show

Cause I'm a happy man that's plain to see

Cause baby my love is deep...

When I'm gone the only thing I think about is you

And all your sweet love that you give to me

And you're a part of every single thing I ever do

And that's the way it's always gonna be

Cause baby my love is deep...

I've got too much love for you for me too hard to hide
