

Old Photographs

Charley Pride

Here is one that we took one Sunday afternoon I remember it was
in the summer time
On the back it says eight eleven sixty five the same day you pr
omised to be mine
But old pictures have a way of fading like a love that wasn't m
eant to be
Still each night I dig out the family album but old photographs
sure get to me

Here it is it's the last one that we took together
Though it's faded a little more than the rest
I suppose it's because of all the tearstains on it
Bit it's the one that to me you look the best
Yes old pictures have a way...
Yes old photographs sure get to me
