

Resting Place

Charley Pride

Many times our work seems endless
As we la-bor in the fields
But I know the day is coming
When sweet rest will be revealed

Resting place four square city
Resting place heavenly shore
Resting place land of beauty
Where we'll rest forever more

Loved ones going on before us
How we mourn their passing souls
But God's words has spoken comfort
They have found this rest I know

Resting place four square city
Resting place heavenly shore
Resting place land of beauty
Where we'll rest forever more

Now there's a place prepared up yonder
Where the cool clear waters flow
And I'm longing for that country
And someday soon that's where I'll go

Resting place four square city
Resting place heavenly shore
Resting place land of beauty
Where we'll rest forever more

Resting place land of beauty
How I'm longing for that country
Where we'll rest forever more
Where we'll rest forever more
Forever more
