

## She's Helping Me Get Over You

Charley Pride

I've told her all about you when I met her  
So she understands what I'm going through  
She knows when I forget you I can love her  
And that's why she's helping me get over you  
Lord knows she never makes my heart stop beating  
Or tears me all to pieces like you do  
But she does everything she can to make me happy  
And that's how she's helping me get over you

She knows that we still spend sometime together  
And she's waiting just the way I asked her to  
Everyday she ceases your mem'ry growing weaker  
And right now she's helping me get over you  
Lord knows she never makes...  
And right now she's helping me get over you
