

Then Who Am I

Charley Pride

If he's the one that's always on your mind the only one who's love can satisfy

If he's the one that keeps your heart alive then who am I who am I

Am I no more than just a rock you needed for a stepping stone
Until the right one came along

If he's the one that live with you inside then who am I who am I

Am I no more than just a fool that held you up when you were down

Until your true love could be found

If he's the one that live with you inside then who am I who am I

Yes who am I who am I
