

# We Had All The Good Things Going

Charley Pride

It wasn't very long ago we had a love few people know  
And everything was going oh so fine  
I've trusted you you've trusted me the way that it's supposed to be  
But the love slipped from us somewhere down the line  
We had all of the good things going baby you know we did they were so kind  
Enjoying the taste of the good life we all look for but few can't find

It's gone but we can't understand how love could slip right through our hands  
On down the line things seem so very right  
Our love went on for all these years we both knew that we were sincere  
Then suddenly it was gone just over night  
We had all of the good things...

Now that we've gone our separate ways I still recall those brighter days  
The days that didn't seem so very long  
Neither of us are to blame we overly know that it's a shame  
That all that we had going now is gone  
We had all of the good things...
