

You Snap Your Fingers (And I'm Back In Your Hands)

Charley Pride

You snap your fingers and just like that I'm back in your hands
I cried a river washin' your mem'ry away
And I finally made it at least till you phoned me today
And I nearly hung up but teardrops destroyed my plan
You snap your fingers and just like that I'm back in your hands
You snap your fingers and just like that I'm back in your hands
Startin' all over right back where I've always been
And I'm just beginnin' to learn some things never end
You snap your fingers and just like that I'm back in your hands

And I'm just beginnin'...

You snap your fingers and just like that I'm back in your hands
