

## You Snap Your Fingers (And I'm Back In Your Hands)

Charley Pride

You snap your fingers and just like that I'm back in your hands  
I cried a river washin' your mem'ry away  
And I finally made it at least till you phoned me today  
And I nearly hung up but teardrops destroyed my plan  
You snap your fingers and just like that I'm back in your hands  
You snap your fingers and just like that I'm back in your hands  
Startin' all over right back where I've always been  
And I'm just beginnin' to learn some things never end  
You snap your fingers and just like that I'm back in your hands

And I'm just beginnin'...

You snap your fingers and just like that I'm back in your hands
