

Focus

Charli XCX

I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus, focus

I just want you to focus
Pull me in, pull me closer
Give me that diagnosis
Blow my mind like explosions
Just one touch leaves me helpless
On repeat like it's endless
Bedsheets turn to a white dress
Look so good, damn you dig this
Yeah

I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
Just focus on my love, yeah
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
Just focus on my love, yeah

Want 100% of your attention
Want 100% so I'm in heaven
Want 100% of your attention
Keep watching my eyes
Want you to realize

I just want you to focus
Better keep your composure
Like you tryna' earn that diploma
Do it over and over, yeah
Make it pop, Coca-Cola
Keep it hot, Barcelona
Bedsheets turn to a white dress
Look so good when I'm naked, yeah

I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
Just focus on my love, yeah
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love

Just focus on my
Just focus on my love, yeah

Want 100% of your attention
Want 100% so I'm in heaven
Want 100% so I'm in heaven

I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus, focus
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus
Focus, focus on my love

I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
Just focus on my love, yeah
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
I just want you to focus on my love
Just focus on my
Just focus on my love, yeah
