

# Live Life

Charli XCX

What's been goin' on this week  
Well, people started dealin' speed  
And kids my age start smokin' weed  
Just so that they can get some sleep

'Cause parents, they get really mad  
When their children start to turn all bad  
And start hanging out with the wrong group of lads  
Who smoke dodgy slips and pick fights with the chavs

But they forget  
You can't rewind, no  
You can't turn back time  
'Cause there's always gonna be a better grassy side  
But no one's gonna get there  
So, just let them live their lives

Take a look inside the bag  
It's enough to make you want to gag  
'Cause you find out your daughter's a filthy slag  
Some naked pictures and a box of sucky fags

'Cause parents, they get really mean  
And they start to get all threatening  
Saying they'll pack you out onto the street  
If you come in late, smelling of green

But they forget  
You can't rewind, no  
You can't turn back time  
'Cause there's always gonna be a better grassy side  
But no one's gonna get there  
So, just let them live their lives

What's been goin' on today  
Well, Susie didn't have a say  
So she got her things and ran away  
Never showed her face again

And Johnny failed every exam  
Screwed up his parents' whole life plan  
They got no job, can't be no money  
He's a lazy ass, not a helpin' hand

'Cause parents, they get really mad  
When their children start to turn all bad  
And start hanging out with the wrong group of lads  
Who smoke dodgy slips and pick fights with the chavs

'Cause parents, they get really mean  
And they start to get all threatening  
Saying they'll pack you out onto the street  
If you come in late, smelling of green

But they forget  
You can't rewind, no  
You can't turn back time

'Cause there's always gonna be a better grassy side  
But no one's gonna get there  
So, just let them live their lives

Go on, let them live it  
They're gonna just live their lives  
Let her take another drug 'cause  
They're gonna just live their lives
