

## Need Ur Luv

Charli XCX

I need your love  
I need it even when it hurts me  
I won't give up  
I won't give up, so come and get me

Boy, you really messed around  
Put me six feet underground  
Always kick me when I'm down  
But I'm still driving through your town

Tried to fake it, I can't take it  
Boy you trapped my heart  
I can't shake it, 'bout to break into a hundred million parts

(2x):

I need your love  
I need it even when it hurts me  
I won't give up  
I won't give up, so come and get me

Wish that you could wear my crown  
And feel the weight I'm feeling now  
But I can't help but say your name  
It's lightening when you're in my veins

Boy, you really broke my heart  
Took my love and tore it up  
But I'm coming back for you  
Coming clean out of the blue  
All the things you did to me  
I forgive them quietly  
But I will never forget  
And still I end up in your bed

(2x):

(I need your love)  
I don't want it  
(I need it even when it hurts me)  
You really hurt me, baby  
(I won't give up)  
Now, I'm giving up  
(I won't give up, so come and get me)  
Don't you come and get me, baby
