

# All Night Long

Charlie Daniels

Well the party started early bout a quarter till three  
Just a few close friends and my baby and me  
We just got started when somebody asked  
How long you think this party's goin' to last

We said all night long all night long  
We'll be rockin' we'll be rollin' goin' to boogie woogie all night long

Well the next door neighbors started raisin' a fuss  
Said you had a party and didn't call us  
I said put on your dancin' shoes and come along  
We'll be here till the cows come home

And that's all night long said all night long  
We'll be rockin' we'll be rollin' goin' to boogie woogie all night long

( keyboards )

Well they're jumpin' through the windows sneaking down the halls

Dancing on the ceilin' dancin' on the wall  
The last thing I remember before the lights went out  
I jumped up on the table and I started to shout

I said all night long all night long  
We'll be rockin' we'll be rollin' goin' to boogie woogie all night long

( guitar )

I said all night long all night long I said all night long all night long

I said all night long all night long I mean all night long all night long

We'll be rocking we'll be rolling going to boogie woogie all night long

Yeah I said all night long honey all night long  
Dancing all night long I said all night long  
We'll be rockin' we'll be rollin' goin' to boogie woogie all night long

I said all night long I said all night long  
I said all night long rockin' all night long
