

# The Girl Next Door

Charlie Daniels

Almost all of my life every day and every night  
The only thing that I could think of  
Was doing all I could do to find me a true blue  
A foxy little lady to love  
I looked uptown downtown looking all around town  
Searching and trying so hard  
Looking for the right face but looking in the wrong place  
I should have looked in my back yard  
Cause I found everything I was a looking for  
When I fell in love with the pretty little girl next door

She went away to college to get herself some knowledge  
She just got back a month ago  
She had changed a whole lot I found out she was not  
That little girl I used to know  
As little freckled faced tomboy who used to make a lot of noise  
Running around the neighborhood  
Was sitting on the front porch in a pair of short shorts  
And buddy she was looking good  
I got what I want I'll never ask for more  
When I fell in love with the pretty little girl next door

We're gonna move way out to a little biddy town  
Where the living is nice and slow  
Where they ain't got nothing but a general store  
One street and a picture show  
I hope we have a little boy gonna be my pride and joy  
Raise him by the golden rule  
Watch him while he grows tall fishing poles and football  
Apple pie and Sunday school

So goodbye bright lights single bars and wild nights  
Goodbye all you partying girls  
You can't find what I've got in honky tonks and night spots  
And I wouldn't trade it for the world  
Tell the boys at the hideaway I hope they had a nice day  
Tell them all I said goodbye  
I would've dropped around but I'm going out of town  
And besides I've got a ring to buy  
So long old friend I'm headed out the door  
With my blue eyed ever loving pretty little girl next door the girl n  
ext door

I got all I want I'll never ask for more  
When I fell in love with the pretty little girl next door I said the  
girl next door  
I'm talking bout the girl that foxy little girl that pretty little gi  
rl next door  
I'm talking bout the girl that foxy little girl that pretty little gi
