

## Born To Love You

Charlie Louvin

My life was empty so blue and alone  
Then you've put your hand in mine and I knew why I was born  
Born to love you born to love you born to share your smiles and  
tears  
Born to be near if you need me dear born to love you till I die

I used to wonder what life held in store  
Then you held me in your arms now I wonder no more  
Born to love you...  
Born to love you till I die
