## **Born To Love You**

## **Charlie Louvin**

My life was empty so blue and alone Then you've put your hand in mine and I knew why I was born Born to love you born to love you born to share your smiles and tears Born to be near if you need me dear born to love you till I die

I used to wonder what life held in store Then you held me in your arms now I wonder no more Born to love you... Born to love you till I die
