

Come And Get It Mama

Charlie Louvin

She's a come and get it mama and I'm a never have to call me twice man

She sure spreads a good table fittin' for this here man

Any time she calls me I come a runnin' just as fast as I can

She's a (come and get it mama) and I'm a never have to call me twice man

Sometimes I'm goin' to wonder a keepin' up with my chores

And I might straight just a little too far from my own backdoor

When others biddles tempt me and I'm just about to make the plunge

I can hear mama holler come and get it at the top of the lounge

She's a come and get it mama...

She's a come and get it mama...

She's a (come and get it mama) and I'm a never have to call me twice man
