

## Once A Day

Charlie Louvin

Once a day every day all day long  
When I found somebody new I thought I never would  
Forget you for I thought then I never could  
But time has taken all the pains away until now I'm down to hur  
tin' once a day  
Once a day all day long and once a night from dusk till dawn  
The only time I wish you weren't gone is once a day every day a  
ll day long

I'm so glad that I'm not like a boy I knew one time  
He lost the girl he loved then slowly lost his mind  
He sat around and cried his life away well lucky me I'm down to  
crying once a day  
Once a day all day long...  
Once a day every day all day long
