

# Blackberry Light

Charlie Mars

When you're young you think  
You walk on water  
You ride around singing walking on the Moon.  
Some find love and take a walk down the aisle  
Some find love, some find love  
Some find love and let it walk out the room.  
One minute, I wanna pick up and move on  
The next minute, I wanna pack up and move home.  
On my mind, it raises in the night  
I'm always trumbling around in your  
Blackberry light.

When you're young you're finally on your own,  
The nights so fast, makes the days so long  
Some wake up they say show me a sign  
Some see the night, yeah  
Some see the light in and they let it shine  
One minute, I wanna pick up and move on  
The next minute, I-I wanna pack up and move home.  
But on my mind, it raises in the night  
I'm always trumbling around in your  
Blackberry light.

Let the seats back  
Turn the bass up,  
Pretend for a minute that you need my touch  
That you need my touch.

They say show me a sign,  
When you're young you think  
You walk on water  
You ride around singing walking on the Moon.  
Some find love and take a walk down the aisle  
Some find love,  
Some find love and let it walk out the room.  
One minute, I wanna pick up and move on  
The next minute, I wanna pack up and move home.

One minute, I wanna pick up and move on  
The next minute, I-I wanna pack up,  
I wanna move home.  
On my mind, it raises in the night  
Girl you look so pretty with your . on the light.
