

# Listen To The Darkside

Charlie Mars

Hey Abigail  
I know your day has been hell  
Don't take to heart the words that he says  
I know you're a good girl -- You're not out to hurt nobody  
He's just tryin' to get -- Tryin' to get in your head

Ohhhhh if you want to come...  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon

Hey Hey Hey my friend  
Are you at it again  
I think you hold your heart too close to the vest  
I know you're a good man -- You're not out to hurt nobody  
She's just tryin' to get -- Tryin' to get in your head

Ohhhhh if you want to come...  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon

And I won't have the right words -- The right words to say  
There's just no magic cure for the games people play  
So if you wanna come over

Hey Abigail  
I know your day has been hell, girl  
Don't take to heart the words that he says  
I know you're a good girl -- You're not out to hurt nobody  
He's just tryin' to get -- Tryin' to get in your head

Ohhhhh if you want to come...  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon  
If you want to come over -- Come over and get high  
we can listen to The Dark Side of the Moon

If you want to come over  
come over and get high  
If you want to come over  
come over and get high  
If you want to come over  
come over and get high  
we can listen to The Dark Side of the Moon
