

# Nothing But The Rain

Charlie Mars

I had a dream I was in the mountains  
Where the snowflakes fall  
I heard a sound in the distance  
I swore it was calling my name  
You said it's nothing but the rain  
In his jealousy  
And then we wound up in a sea or a river  
I could not tell  
Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer  
If I come closer I may fall  
Like the snow in the water and disappear in it all

I had a dream I was in the mountains  
Where the snowflakes fall  
I heard fear in the distance  
I swore it was calling my name  
You said remember it's nothing but the rain  
In his jealousy  
And then we wound up in a sea or a river  
I could not tell  
Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer  
If I come closer I may fall  
Like the snow in the water and disappear in it all

Oh I want to believe  
I want to believe even though I know  
That nobody here  
Is as pure as the driven snow

Oh won't you come a little closer
