

Nothing But The Rain

Charlie Mars

I had a dream I was in the mountains
Where the snowflakes fall
I heard a sound in the distance
I swore it was calling my name
You said it's nothing but the rain
In his jealousy
And then we wound up in a sea or a river
I could not tell
Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer
If I come closer I may fall
Like the snow in the water and disappear in it all

I had a dream I was in the mountains
Where the snowflakes fall
I heard fear in the distance
I swore it was calling my name
You said remember it's nothing but the rain
In his jealousy
And then we wound up in a sea or a river
I could not tell
Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer
If I come closer I may fall
Like the snow in the water and disappear in it all

Oh I want to believe
I want to believe even though I know
That nobody here
Is as pure as the driven snow

Oh won't you come a little closer
