Nothing But The Rain

Charlie Mars

I had a dream I was in the mountains Where the snowflakes fall I heard a sound in the distance I swore it was calling my name You said it's nothing but the rain In his jealousy And then we wound up in a sea or a river I could not tell Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer If I come closer I may fall Like the snow in the water and disappear in it all

I had a dream I was in the mountains Where the snowflakes fall I heard fear in the distance I swore it was calling my name You said remember it's nothing but the rain In his jealousy And then we wound up in a sea or a river I could not tell Me and Louise in the water where the snowflakes fell

Oh won't you come a little closer If I come closer I may fall Like the snow in the water and disappear in it all

Oh I want to believe I want to believe even though I know That nobody here Is as pure as the driven snow

Oh won't you come a little closer
