

Next To You

Charlie Puth

Ohh..

Doo doo doo doo doo

Right next to you,

You're the kind of person I remember seeing before
You're pretty face is one that I'll always adore
You have the eyes that'll close whenever you kiss me
Because love makes us whatever we want to be

How do I breathe?

How do I sleep?

With you not beside me

You're all the things I could not see

But now they're infront of me

When I'm right next to you

Right next to you

Yeah, no matter what I do

I wanna be next to you

Right next to you

Right next to you

When I saw you at that on that one particular day
I was really hoping and wondering if you'd ever look my way
So I got up from my seat but you had already passed me by
If only I got there earlier and not lost in your eyes.

How do I breath?

How do I sleep?

With you not beside me

You're all the things I could not see

But now they're infront of me.

When I'm right next to you

Right next to you

Yeah, no matter what I do

I wanna be next to you

Right next to you

Right next to you

I'll promise one day I'll be

And maybe one day you'll see

That you belong to me

Baby, baby

I don't know what to do

And it only helps when I'm singing right next to you

Sitting right next to you

Da-da

Right next to you

Da-da-da-da-da-da

Right next to you...
