

Feeling Good

Charlie Robison

Feelin good my friend, I got 4 wheels upon the road
Feelin good again, I don't need to share the load
Well I got ties that show a backbone made of silver
Well I got willie playin on my radio
I had an angel and she promised she'd deliver
Gonna save my soul, but she left a hole

Hope this never ends, raise my face into the sun
Hope this never ends, I guess you never were the one
Well I got a t-shirt that I bought when I was 20
It says "long live rock-n-roll"
Well I got pockets, if there's money I got plenty
Hope this summer folds, helps to save my soul

Feelin good my friend, I got 4 wheels upon the road
Feelin good again, I don't need to share the load
Well I got strings that sound as pretty as the ocean
Gonna sit up in the dunes
And wonder what became of undying devotion
I'll just play a tune, freedoms comin soon
Play another tune, play it to the moon
