

Down Down Down

Charlie Simpson

There are too many people in this world
Trying to shove their names
How am I supposed to know where to run?
But I don't know who's to blame
And I give people something along the way
Is it OK to be afraid of love if you don't understand it?

And the nights are so long without you
And the days speed up,
My god I'll never let go of you now
Cause some things are not worth changing

My heart swells to the size of an orchid
It takes the rest of my heart with it
Going down down down...
But I'm never going back home

We've sent people into space without even really knowing
If there ever gonna come back down
And there are people asking
Just where I am,
Is it ok to be afraid of hope if you don't know how to keep it?

And the nights are so long without you
And the days speed up,
My god I just can't lose you now
But things are about to change

My heart swells to the size of an orchid
It takes the rest of my heart with it
Going down down down...
But I'm neverrrrrr going back home

If people on Earth could just get together
Then maybe we could find a place for each other
If people on Earth could just stand together
Then maybe we could find a place for each other

If people on Earth could just get together again
Maybe we could find a place for each other
If people on Earth could just get together again
Maybe we could find a place for each other now...
