

# How Do You Like My Earrings

Charlie Straight

All my friends are in love  
All my friends are in love  
They've been talking about her  
They've been trying to find her

All my friends are in love  
I'm only waiting for the train  
Sorry for such a long delay

Maybe she could be the one  
When she's drunk, she's so much fun  
They've been thinking about her  
- if she's like no other

Maybe she could be the one  
I'm only standing by the road  
Give me a sign that I can go

How do you like my earrings?  
They're from my boyfriend's broken jaw  
These screws used to keep it together  
He doesn't need them anymore

How do you like my earrings?  
They're heavy metal, I am sure  
The doctor said he'd be okay  
I wanna let my feelings show

All my friends are away  
In a better place to stay  
Guess I know the reason why  
They didn't say goodbye

They are all out of reach  
I feel like going for a swim  
I wish we lived beside the sea

How do you like my earrings?  
They're from my boyfriend's broken jaw  
These screws used to keep it together  
He doesn't need them anymore

How do you like my earrings?  
They're heavy metal, I am sure  
The doctor said he'd be okay  
I wanna let my feelings show
