

I sleep alone

Charlie Straight

So long love
I won't call you anymore
Sure enough you took the key and locked the door
So long love, you don't love me anymore
I'm not sure, I'm not sure where I should go

Should I let you know?
It's hard to let it go
All posters on your wall
And I wonder If you sleep alone
I sleep alone

Bye, bye love
Guess I've heard these words before

I don't need you anymore
No matter where I'll go
I'll always take this one road home
Just to see If the line your road is done

Should I let you know?
It's hard to let it go
All posters on your wall
And I wonder If you sleep alone
I sleep alone

I sleep alone (4x)
