## **Tiger In Your Heart**

## **Charlie Straight**

The day we met was cold - winter You said you were the icy queen I thought I saw a wild tiger Nobody else could see

There's a tiger in your heart! In you! No matter what you say No matter what you do

In the trees, in the wind In the tide and the waves In the salt on my skin In the moment I wake

In the things that you wear In the air, in your hair In the snow and the rain You'll be there, you'll be there

Oh, there's a tiger

I thought it was a dream, really! The moment you came and went Didn't even know, did I? If I would ever see you again There's a tiger in your heart! In you! No matter what you say No matter what you do

In the trees, in the wind In the tide and the waves In the salt on my skin In the moment I wake

In the things that you wear In the air, in your hair In the snow and the rain You'll be there, you'll be there

Oh, there's a tiger Oh, there's a tiger Oh,tiger! Oh, come home to me
