Try Some Stuff You Don't Think You Should

Charlie Straight

```
Bmi   G#   Bmi   G#

Bmi
No one will ever sing this song to you
Believe me, yeah, it's true
F# Bmi
No one
Bmi
No one has ever sung this song to me
We'll be together?! Who said we would be?
F# Bmi
No one

                  G#
A friend of mine told me that it's good
            F#
To try some stuff you don't think you should
         F#                 Bmi   G#   Bmi   G#
And so I went and I said I would

Bmi
No one will ever let you down again
It's been so long now since we two began
F# Bmi
So long
Bmi
Are we apart yet? Don't know what to do
These feelings I get don't mean me and you
F#    Bmi
It's not you

                  G#
A friend of mine told me that it's good
            F#
To try some stuff you don't think you should
         F#
And so I went and I said I would

C#
But I don't really mean it
C   Bmi              (F#)
I'll tell you the truth when you get home
C#
I've already seen it
C   Bmi           (F#)              G#
that people are lonely on their own
C#   F#   G#
C#   F#   G#

C#
I don't, don't, don't really mean it
F#                G#
I don't, don't, don't really mean it
C#
I don't, don't, don't really mean it
F#                   G#
I've already seen it, I've already seen it
```

```
C#
When you get home again
F#       G#
I'll tell you the truth and then
C#
When you get home again
F#       G#              C#
I'll tell you the truth, my friend
```

```
C#
When you get home again
F#       G#
I'll tell you the truth and then
C#
When you get home again
```
